The figure is a scatter plot with error bars. The x-axis is labeled 'Temperature' and ranges from 10 to 13.5. The y-axis ranges from 0 to 10. There are 25 data points. Most points follow a positive linear trend, starting from around (11.1, 2.5) and ending at (13.1, 9.5). One point is an outlier at approximately (9.8, 1.5). Error bars are present for all points, with some having larger horizontal error bars than others.
